## Raise your game: Speak for Impact!

### *The opportunity*

Every time you speak, whether you are meeting a client one-on-one, or presenting to a large group, you have an opportunity –to get real, to connect, to make an impact.

### *The Obstacle*

Our communication skills often determine whether we win or lose a case, make the sale, or get the job. That means how our voice, body and content work together, really matters!

Because we speak all the time, it's a common misconception that public speaking should be easier:

*"I speak all the time, shouldn't I be good at it by now?"*

No! Speaking for *impact* is a specific skill, requiring a set of tools, guidance and practice.

Once you realize the power that lies in YOU for communication that is powerful, connected and real, you'll find that there's a whole new way to raise your game.

### *The Solution*

In this intimate coaching workshop you will receive group work and one-on-one instruction in:

- *Identifying your speaking style, and cultivating your personal charisma*
- *Releasing fear and "tells" of nervousness and intimidation*
- *Building an open yet authoritative presence through the intentional use of voice and body*
- *Clarifying your content and then getting out of your own way*

### *Seminar components*

This workshop is comprised of a seminar given by a Performance Coaching professional, time allotted for interactive group and partner work and one-on-one assessments with a performance coach.

To bring this seminar to your business, community or school, please see Booking Fees and Policies.

## Raise your game: Master the High Performance Interview!

### *The opportunity*

Every time you interview, you have an opportunity get real --with yourself, your goals, your content and to make an authentic connection with the interviewer.

What most people don't realize is that you also have an opportunity to define the rules and your status *before* you walk into the interview room.

### *The Obstacle*

You have the the resume, the background, the expertise. You've been on a number of job interviews. You just aren't landing the job you want.

### *Time to examine the language of your subtextual conversation.*

Have you ever found yourself making a snap judgment, based on the sound of someone's voice? the way they present themselves? The handshake or email you receive? or just a feeling you get when they walk in the room?

Now put yourself on the receiving end. You have the power to change their perception..

### *The Solution*

Through the intentional use of body language, vocal dynamics and carefully crafted content you have the power to raise your status in the people's perception.

Best of all, the techniques we teach to raise your status, will also positively effect your own state of mind. You will be *perceived* and *feel* more calm, confident and competent.

### *Seminar components*

In our one-on-one coaching session, we will:

- *Identify your speaking style, and cultivating your personal charisma*
- *Release fear and "tells" of nervousness and intimidation*
- *Build an open yet authoritative presence through the intentional use of voice and body*
- *Clarify your content and help you get out of your own way*

Giving you tools so that you can perform at your best, when the stakes are the highest.
